Programming the Time & Date

→ The time operates on a 24 hour clock.
→ If your system time / date is incorrect follow the steps below to correct the time / date.
→ The new time may not be displayed for a few minutes afterwards!

Keypad Instructions:
Step 1: **[✱]**
Step 2: **[6]**
Step 3: **[Master Code]** - 4 digit code of user 40/owner/manager
Step 4: **[01]**
Step 5: **[hh:mm:MM:DD:YY]**
        [hour / minute / month / day / year]
Step 6: **[#] [#]**

Ex: Set time for 8:05am March 28, 2008 using mastercode of 5678
[✱] [6] [5678] 0[1] [08 05 03 28 08] [#] [#]

Ex: Set time for 1:26 pm May 2, 2008 using mastercode of 5678.
